INTERNSHIP / WORK EXPERIENCE

Web Development Intern

ESHUZO Global Technology Pvt. Ltd. | Ranchi
May 2024 – Nov 2024

- Developed and maintained dynamic web pages using HTML, CSS, JavaScript, and PHP.
- Built interactive user interfaces using jQuery and Bootstrap for better user experience.
- Worked on integrating AJAX for seamless data fetching without page reloads.
- Assisted in building database-driven applications with MySQL for storing user data and other key information.
- Collaborated with the team to create responsive and mobile-friendly websites.
- Debugged and optimized existing code for better performance and user experience.

PROJECTS

1. Personal Portfolio Website

Technologies: HTML, CSS, JavaScript, Bootstrap

- Designed and developed a responsive portfolio website to showcase my skills, projects, and achievements.
- Created an interactive, modern design with smooth animations and transitions using CSS and JavaScript.

CAREER STATEMENT

"As an enthusiastic and detail-oriented software developer, I am seeking an opportunity to apply my knowledge of Python, HTML/CSS, and JavaScript in a dynamic development team. I have successfully developed and deployed web applications during my academic career, and I am eager to leverage my skills in building innovative solutions and improving user experiences. With a strong passion for coding and continuous learning, I aim to contribute to a forward-thinking company while growing as a professional."

PERSONAL DETAILS

Languages Proficiency : English, Hindi, Urdu

Nationality : Indian

Date of Birth : 02-Sep-2002

Gender : Male

Marital status : Unmarried

Religion : Muslim

2. Ambulance Booking Website

Technologies: HTML, CSS, JavaScript, PHP, MySQL

- Developed a web-based ambulance booking platform that allows users to request an ambulance in emergency situations.
- Designed the front-end with a responsive UI using HTML, CSS, and JavaScript to ensure a smooth user experience across devices.
- Integrated PHP for back-end development to handle user inputs, such as location, type of ambulance, and emergency details.
- Used MySQL for storing user information, booking details, and ambulance availability.
- Implemented real-time notifications to alert users about the status of their ambulance booking.
- Enabled admin functionality for ambulance operators to view, update, and manage booking requests.

3. Blog Website

Technologies: HTML, CSS, PHP, MySQL, jQuery

- Created a blogging platform where users can publish and manage their blog posts.
- Used MySQL for database management and PHP for back-end scripting.
- Implemented dynamic content loading using jQuery and AJAX to enhance user experience.

The above furnished details are correct and true to the best of my knowledge.
